Tasks and structure

## MINISTRY OF AGRICULTURE, ENVIRONMENT AND CLIMATE PROTECTION

[mluk.brandenburg.de](http://mluk.brandenburg.de)

## GOALS AND TASKS

Geographical position of the state of Brandenburg in Germany

The state of Brandenburg is the fifth largest federal state and is located in the north-east of Germany.

It is characterized by the last ice age, by agricultural use, by extensive and undestroyed landscapes as well as a valuable animal and plant world. Together with the city-state of the federal capital Berlin, Brandenburg forms a metropolitan area and agglomeration of national and European significance.

The Ministry of Agriculture, Environment and Climate Protection (MLUK) of the State of Brandenburg is responsible for three policy areas that are of central importance.

The ministry's task is to steer and accompany the development of rural regions, taking into account environmental and nature conservation aspects.

The protection of the environment and nature, species, climate and flood protection, clean air and intact soils are inseparable elements of a good quality of life.

Agriculture and forestry form the economic backbone in rural areas. Securing the basis of production in the long term is the task of the MLUK and the focus of Brandenburg's agricultural policy.

## STRUCTURE

The MLUK is the highest state authority and within five divisions it handles the issues:

- Central affairs
- Waste
- Soil
- Forest and hunting
- Immission protection und climate
- Rural development
- Agriculture and fisheries
- Nature
- Water

The ministry is headed by Minister Axel Vogel. State Secretary is Anja Boudon.

The Ministry's portfolio includes the State Office for the Environment, the State Office of Rural Development, Agriculture and Land Consolidation, the State Company for Forestry and the Lower Oder Valley National Park.
